

Restaurant Tram ATMosfera

Frequently Asked Questions

What is the difference between Atmosfera 1 and Atmosfera 2?

Restaurant trams are identical and offer the same service.

Does the tram have air conditioning?

Of course. Air conditioning system may be adapted according the season of the year.

Is there a toilet on board?

Each tram is equipped with a toilet.

Can I bring my pet on board?

The reduced space does not permit per transportation, even if they are small in size.

Is ATMosfera wheelchair accessible?

Tram vehicles have entry steps which cannot be wheelchair adapted. The small spaces and the impossibility of moving the seats and tables must be considered when dealing with people with reduced mobility. In addition, any mechanical aids used must be placed in the cloakroom, located at the rear of the tram. Even the toilet is not easily accessible. We recommend checking the internal dimensions of the tram given above before booking.

What does the service include?

A 2 hour 30 minute tour of the historical and contemporary areas around Milan

A menu per person to choose from: meal, fish or vegetarian

Coffe and beverage (wine included)

How is the food prepared?

Trams are equipped with a kitchen that offers freshly prepared dishes. Some of them may be prepared by catering services and heated before serving.

Can I ask for the menu to be changed?

The menu cannot be personalised, but the chef will meet your request for any allergy problems or food intolerances (you can indicate them when making your booking).
