

The ATMosfera tram-restaurants are provided with architectural barriers dating back to 1929. The internal area has been optimized to obtain fixed tables and seats. Therefore, the special structure is not suitable to accommodate prams, wheelchairs, persons with reduced mobility, corpulent or oversize persons

MEASURES

- A. Width of the entrance doors to the dining-room and to the toilet: 58 cm
- B. Amount of space between the seat back and table (valid for all places): 32 cm
